

# Best Student Project Award 2019

To students/former students, who have handed in a project after January 1, 2018

Dear Students,

The Danish Rail Sector Association (BaneBranchen) supports railway education in Denmark and organizes the Danish Rail Conference ([www.railcph.dk](http://www.railcph.dk)), strives to be innovative and increase the focus on education within railways. Therefore, BaneBranchen has introduced the Best Student Project Award (not including PhD projects). The prize will be a gift of DKK 15,000 towards travel experiences and the winner will be announced at the Danish Rail Conference on 6 May 2019.

To apply for the award, you should have handed in a project (bachelor thesis, master thesis, special course or similar) within a railway or light rail related topic after January 1 2018. Send an email with a PDF-file of the project to [StudentProject@banebranchen.dk](mailto:StudentProject@banebranchen.dk) together with a cover letter (max 2 pages in Danish or English). The deadline for applying for the prize is April 1, 2019. The applications and projects will be evaluated by a committee of BaneBranchen board members.

The evaluation committee will focus on the following criteria (that should be described in the cover letter):

- ➔ The project's relevance to the railway sector
- ➔ The findings of the project
- ➔ The applicability of the project
- ➔ Grade the project achieved – if a grade has been given

In order to receive the award the winner of the Best Student Project Award 2019 must attend the opening of the Danish Rail Conference on 6 May 2019, and also to be able to give a short presentation of the project.

Best regards,  
Søren Boysen  
Chairman of BaneBranchen
